WHAT CHANGES WITH THE NEW REGULATION?

New requirements
for invoicing
systems

Ensures integrity,
conservation, accessibility,
legibility, traceability
and unalterability
of records.

Traceability
of each transaction

All invoices and
records must be
correctly identified
and linked
between them.

Automatic sending
to the AEAT (Facturea)

Invoicing records
are sent to the Tax
Agency at the time
of generation.

Mandatory future
adaptation

Companies and
professionals must adapt
their systems within
established deadlines.

THE ONLY COMPLIANCE OPTION

Facturea

Automatic sending
of records to the AEAT.

- ✓ Verifiable invoices.
- ✓ The AEAT stores
the sent records.
- ✓ Lower local
records retention
requirements.

HOW OUR SOLUTION WORKS?

0

Generation of
the invoice

The invoice is generated
from the company's
usual system.

1

Identification on
the platform

Facturea recognizes
the system, ERP or
application where
the invoice originated.

2

Entry into your
private space

The user logs in to their
secure environment to
view and manage
the information.

3

Creation of the
invoice record

The record is automatically
created with the required
data according to
regulations.

4

Validation and
protection

Integrity, traceability
and unalterability
of the information
are verified.

5

Sending or
conservation

The record is sent
to the AEAT or
stored according to
the applicable
configuration.

6

Invoice with
included codes

The invoice includes
the required codes
and formal
data elements.

Complete and
unalterable records

Verified
identities

Digital
contracts

Revocable
permissions

Full registration
and audit
